### Why Taro and Jiro?

There are two main waterfall , ''Taro daki'' and ''Jiro daki'' .  
The name of them are based on the legend story.  
One day , they were broken into the house. But they were noticed by village people , so they run away and jumped into this waterfall.  
They died and few times later , they became waterfall.

### Can you hear the beauty; Taro and Jiro waterfall?

The source of this waterfall is Mt.fuji. So if you go there , you can feel the blessing of Mt.fuji . Because of many benefits and quality of this water , the natural springs of 十日市場 and 夏狩 are selected for '' the 100 best natural waters of Heisei'' (100 Exquisite and Well-Conserved Waters) this year. The viewing and sound of waterfall is also excellent.

This time we went three places(red circled places) by walk. It takes 15 to 20 minutes to go Taro-Jiro waterfall on foot from Higashikatsura station (東桂駅) . The distance to go there is little hard for us , because the road is roughness. So, you should wear the spots shoes to go to there.

HOW DID THE HAIKU MASUTER FEEL?  
松尾芭蕉-BASHO MATSUO-

A great haiku master, Matsuo Bashō came  
to the waterfall and was attracted to  
this beautiful place.  
He composed a haiku poem (勢ひあり 氷消  
えては 瀧津魚, which expresses his happy  
feeling of the arrival of spring with  
delighted fish in Katsura river.)
