We interviewed the owner of the guesthouse, Arakura.

She is the owner, Ms. Rieko Hayashi. We felt she is a kind person. Her smile relaxed us on zoom.

Maybe you would think the owner of the guesthouse can speak English well. However, it is not true. She can't speak English well. So why did she assume the owner of that?

What do you think?

She is very curious woman. She is excited about everything she see.

One day, she came to Fujiyoshida city for sightseeing.

And she saw the desert city. Then, she thought she had wanted to make this city powerful. Her husband is one of her motivating power.

When we interviewed her last month, she gave us some impressive words.

Today, we told you the one of them.

She said, there is no failure. You do until you succeed, you don't fail. We are guided to the success. I was so impressed by this word.

She also said, when we try to do something, the failure is inevitable. It is necessary failure. I think it is also her belief.

New Project

Shamisen Experience

This facility has a service to experience Japanese culture.

She is thinking of introducing something new to this, such as Syamisen experience.

New usage

Rental Space

She wants to suggest to them to use a facility called rental space for people who work online because of covid-19.

The number of customers is decreasing due to coronavirus.

Therefore, she will continue to disseminate information about Japanese culture and the charm of Fujiyoshida on the official.
